For-Official-Use-Only

Hi Glenn

Thank you for your letter.

My own view is that cooperation between the WIA and RASA is to be encouraged, but you do not need my support—or that of the ACMA—to engage the WIA on any proposal.

If Terms of Reference are progressed, the ACMA would not be bound by those terms, nor would the committee serve as a substitute for ACMA functions, so you may want to consider the practical value of the terms proposed in your letter relating to the ACMA's acceptance of submissions and conducting public consultation via the committee. The ACMA would not be able to satisfy the requirements of section 17 of the *Legislation Act 2003*, or what it considers to be best practice engagement with stakeholders, by limiting its consultation to the terms of committee.
