Dear Sir,

I would like to bring to your attention a radio station that we believe is not abiding by the rules as set down by your organisation. The radio station in question is Coast FM – 100.9FM.

There are several ethnic broadcasters who are interested in doing programmes on Coast FM as well as James Cook University students.

We are extremely disappointed at the attitude of [REDACTED] and his organisation for not conducting it as a community radio station as per charter.
