Subject: File reference 2016/451

Attention Sidhi Melkman

I refer to your letter of August 31, 2016 in which you advise finalisation and conditional approval of Noosa Community Radio's (4NSA) renewal of licence SL 1150115.

In your letter you referred to paragraph 84 (2) d which you referred to membership acceptance and rejection processes.

In your letter you required amendments to our constitution to :

- Specify grounds for rejection of a membership application
- Provide grounds for rejectionto the rejected applicant
- Provide a right of reply to rejected applicant
- Remove the requirement of a proposer and seconder to be a member.

In these matters we have an ongoing Constitutional and Policy review and intend to address these conditions for new members in that review. We do not anticipate that amendment being enacted before early 2017, but still in compliance with your conditions of approval.

In addition , you may be assured that our portfolio of current policies includes specific policies for those named in your response covering programming, membership, complaint handling, community participation (as exemplified in our application), volunteering and sponsorship . These can all be found in the attachments of policies to our application(appendices 11AA and 11 AF.)

Should you require copies of specific policies please let me know.

As a result of these policies being standing policies mostly dating from 2009 onwards, I can only presume that minutes of their adoption will not be needed by ACMA.

We shall remain in contact to assure that all licence conditions are met within time constraints.

Yours Truly

Paul Ritchie
