Hi,

Few little suggestions/comments in from me. Once these are addressed and Creina has had a chance to consider, we should get to the Chair for her consideration asap.

Regards

Cath

Importance: High

Good afternoon,

I've just sent through an update on the dis/misinfo code to your respective protected emails, following a discussion with the department earlier today.

Further to this, please find attached for comment and clearance, 3 additional 'fact sheets' to

accompany the release of the ACMA's report. As requested by Nerida, these cover off on our research, findings on the code, and next steps.

Grateful for any comments or changes. Time permitting (noting that release may be sooner than originally expected), we plan to have these professionally formatted by our media and comms team once the text has been approved.

Cheers,
Trent
