[ACMA submission to DIGI code review - July 2022.pdf](#)

---

Dear Sophie, Pauline and Andrew,

I'm writing to let you know that, on Tuesday morning, the ACMA is planning to publish its submission to the DIGI disinformation code review (**see attached, for reference**) on the ACMA's [submissions webpage](#).

This submission was lodged with DIGI back in July. As the review is still ongoing, we have chosen to independently release this submission so that we may begin to refer to its findings publicly, including as part of our submission and upcoming appearance to the Joint Select Committee Inquiry on the 2022 federal election.

We are not planning any media materials and won't be publicly promoting its release. Nevertheless, given the submission highlights the ACMA's observations and/or concerns about several aspects of the code, we wanted to update you in case it did gain public/media attention. We will also be informing DIGI about this later today.

Please get in touch should you have any questions or concerns.

Kind regards,

**Rochelle Zurnamer**
