Kelly

I have reviewed the draft submission and made some comments. I have suggested Creina review my suggestions so we identify if there are any differences of view, so while you should feel free to have a look I suggest you wait on making any changes until Creina has had a chance to work through it – which I think will be later in the week.

Thanks  
James

**Subject:** FOR REVIEW: Draft submission to DIGI Review [SEC=OFFICIAL]

Good afternoon James and Creina,

Please find a draft [\[REDACTED\] submission to the DIGI Review for](#) your consideration. This draft has been reviewed by both Rochelle and Cath.

A few things we wanted to highlight:

- We refer a few times to proposed code changes in the codes admin section which weren't discussed at CCM. You may wish to review the marked up version of the code in [DIGI's consultation paper](#) when you consider the draft submission. Marked up code starts on pg 15. Their annual report is also [here](#) in case you wish to review it when considering the submission.
- Based on CCM feedback, we haven't included individual report cards and have focused on systemic issues with the reporting framework.

We now have an extension until the end of the month. Ideally it would be great to get your feedback by the end of the week to allow us to get Nerida a version for her consideration early next week.

We are happy to discuss as always

Kelly
