I have 'tried' other stations & they just don't measure up for me so I'm a stayer no matter the changes. 😊👍🎵🎵🎵❤️

**Ann Ando** i have gone off this station completely lately. Some of the so called music now on is horrible. Nothing like it used to be.

**Pam Bodger** totally agree with you. I have this station on from early morning until late evening. I have noticed repeated song's, and far to many hillsong music, there are many gospel singers but we don't hear them. I wonder what Hilton thinks about the changes

Love the station and listen to it all day, with the exception of Breakfast with Barry. To much nonsense comes from his mouth and tries to hard to make his program like the MSM stations in the morning. Best is late evenings through the week.
