- (1) Under subsection 30(2) of the *Broadcasting Services Act 1992*, and for the purposes of that Act, the population of Australia is 25,369,716.
- (2) Each item in the Schedule to this instrument sets out the following for each licence area:

 - (ii) beneath the name of the main licence area, in plain text and unshaded, the name of each licence area that overlaps the main licence area (each an *overlapping licence area*);
 - (b) in the third column – in italics and shaded grey, the licence area population of the main licence area, determined under subsection 30(1) of the *Broadcasting Services Act 1992*;
 - (c) in the fourth column – beneath the empty cell, in plain text and unshaded, the percentage of the population of the main licence area that is attributable to the overlap area that exists in relation to:
 - (i) the main licence area; and
 - (ii) the corresponding overlapping licence area; specified under paragraph 30(5)(b) of the *Broadcasting Services Act 1992*;

These figures are included for information only.
- Note 3: The fifth column in the Schedule also sets out the percentage of the population of Australia that is contained within an overlap area that exists in relation to the main licence area and the corresponding overlapping licence area (plain text and unshaded). These percentages are included for information only.
- Note 4: The Schedule does not determine the population for licence areas that relate only to community broadcasting services. The Schedule also does not identify any such licence areas that overlap a main licence area.
- Note 5: The following terms, among others, are defined in the *Broadcasting Services Act 1992*:
