**Re: ACMA Consultation Paper—*Proposal to remake the Public Safety and Emergency Response Class Licence***

Dear Sir/Madam

AMTA appreciates the opportunity to comment on the proposal to remake the Public Safety and Emergency Response (“PSER”) Class Licence.

We acknowledge the ACMA’s consultation and that it does not seek feedback on alternative uses of the band in addition to or other than the PSER.

Noting that the frequency range 4.4-4.99 GHz is part of the “mid-band” spectrum toolbox, as highlighted by AMTA in its response to the draft Five Year Spectrum Outlook 2023-2028 (“the FYSO”), we do have an interest in this spectrum, and wish to be kept abreast of developments by the ACMA.

Yours sincerely,

Chris Coughlan  
Head of Spectrum and Network Infrastructure  
Australian Mobile Telecommunications Association Ltd ([AMTA](http://www.amta.org.au))
