

## Part C

### Application for a permit to install a submarine cable in Australian waters

#### Part C: Required information

1. Provide the following information about the proposed route(s), in Australian waters, of the submarine cable(s) specified in the application:

- the geographic coordinates/geodetic data; Provided as a separate attachment to the application.
- an electronic ESRI ArcGIS Shapefile (.shp); Provided as a separate attachment to the application.
- location of the beach manhole and cable landing station;

[REDACTED]

[REDACTED]

- An A3 or A4 desktop or hydrographic survey of the proposed submarine cable route; Provided as a separate attachment to the application.

2. Details about the ownership and control of the submarine cable(s) specified in the application.

The proponent for the proposed works is Hawaiki Submarine Cable LP (Hawaiki) and is the company that holds the carrier licence under their Australian subsidiary Hawaiki Submarine Cable Australia Pty Ltd as per the requirements of the Commonwealth Telecommunications Act 1997.

3. Provide the scheduled commencement and completion dates for installation of the cable.

Cable installation in Australian waters is scheduled to commence in Q4 2017, while anticipated completion date for installation of the entire cable system is Q1 2018.

4. Provide information about the relevant technical and economic aspects of the installation.

The proponent for the proposed works is Hawaiki Submarine Cable LP (Hawaiki) and is the company that holds the carrier licence under their Australian subsidiary Hawaiki Submarine Cable Australia Pty Ltd as per the requirements of the Commonwealth Telecommunications Act 1997.
